

Savary Island Customers

Thank you for booking with CorilAir. We look forward to providing you with a safe, enjoyable flight. Please review the following to ensure you are familiar with the conditions and details of the reservation for your destination.

Savary Island Conditions

Pick up and drop off location on Savary Island is at the East tip, Indian Point. The location which the aircraft will beach may vary due to tides, marine traffic and weather (see image below).

Aircraft will circle before landing, **WATCH FOR IT.**

On the very rare occasion, due to unforeseen weather or water conditions, we may not be able to land at Savary Island. In the unlikely event, the alternative pick up or drop off points are:

- Powell River (a water taxi service is available in Lund)
- Cortes Bay, or
- Campbell River

All arrangements between the alternate pick up/drop off points are the responsibility and at the expense of the customer.
